

### **NSA (National Security Agency) – March 8, 2024**

Meet at the National Cryptologic Museum on NSA campus - 8290 Colony Seven Rd, Annapolis Junction, MD 20701

The NSA leads the US Government in cryptology that encompasses both signals intelligence insights and cybersecurity products and services. This agency enables computer network operations to gain a decisive advantage for the nation and our allies. Get an overview of what the NSA does and how it engages with the community. This LO includes Museum and East Campus tours.

All participants must submit their full name, date of birth, SSN, birth location (city and state), and citizenship status by Friday, February 23, 2024 – [click here](#) to submit your information. Please contact either [Karen Bryant](#), LHC Director of Communications, or [Lisa Kim](#), LP Program Manager with any questions.

### **JHU – (Applied Physics Laboratory) – April 8, 2024**

11100 Johns Hopkins Road – Laurel, MD 20723

Visit the Johns Hopkins Applied Physics lab where staff will showcase the newest STEM research and development initiatives which encompass the areas of space, artificial intelligence, machine learning, and more. Participants must be U.S. Citizens and have a valid MD ID, i.e., driver's license.
